

Volunteers Wanted

18 years plus

I am looking to recruit volunteers who are over the age of 18 and live in this area to take part in a research project which will examine local policing.

The focus of the project is the impact of community policing in this area since the reform which recently merged the Scottish police into one national police service. I am looking to get local people's views and opinions on how this reform has affected local policing here in your community.

As participants in this project you would be asked to take part in group discussions arranged locally at a time and place convenient to everyone and will last approximately one hour. These discussions would involve approximately 6 or 7 local volunteers. No personal information is required and volunteers and their views will be completely anonymous

If you would like to take part in this project or would like further information on the project please contact me, Yvonne Hail at y.hail@dundee.ac.uk or call on 07799687300....

Thank you
